Erasmus team before the start of the training: "Open teaching strategy in shaping social and civic attitudes"

## Open Teaching Strategy in shaping social and civic attitudes of students, including students with special educational needs

- The purpose of the first training of the planned training cycle, as part of the project, was to expand the skills of shaping social, civic and language competences in students, including students with special educational needs (SEND), by using elements of the open teaching strategy (OTS) in the thematic area of climate protection .

# The modern world

Open Teaching Strategy in shaping social and civic attitudes of students, including students with special educational needs

The activities leading to environmental protection and counteracting climate change in the city and in the region were presented during a meeting with the city government.
